

MODULE : Quadra Tree Categories

AUTHOR : QUADRA INFORMATIQUE

CONTACT: [ecommerce@quadra-informatique.fr](mailto:ecommerce@quadra-informatique.fr)

This module is used to display the different categories in a tree form.

When installing this module, a tab « Categories(tree view) » is added in the menu « Catalog » of your back-office.

This module allows you to move the categories and sub-categories in the tree displayed. You can also access a category by clicking on it.

Note : This module is compatible with Prestashop 1.5 and above versions.

For more informations on this module, check at the following address :
